

C1
D
5 a powder bleach composition;
an aqueous developer composition; and
an aqueous based hair colorant comprised of one or
more cationic dyes;
wherein said components are mixed together just prior
to application to the hair.

F
10 28. A composition according to claim 26, wherein said
persulfate compounds comprise alkali metals or alkaline
earth metals.

C2
15 29. A composition according to claim 28, wherein said
alkali metals are selected from the group consisting of:
lithium, sodium, potassium, and cesium.

C3
33. A composition according to claim 32, wherein said
particulate fillers are inert.

C4
20 35. A composition according to claim 34, wherein said
particulate fillers are comprised of inorganics, inorganic
salts, hydrophilic colloids, carbohydrates, soaps, or alkyl
sulfates.

49. A composition according to claim 48, wherein said volatile silicone is selected from the group consisting of: octamethylcyclotetrasiloxane, decamethylcyclopentasiloxane, and hexamethyldisiloxane.

5

54. A composition according to claim 53, wherein said alkoxilated alcohol is selected from the group consisting of:

products of a reaction of behenyl alcohol and ethylene oxide, wherein the number of repeated ethylene oxide units is 5 to 30;

products of a reaction of cetyl alcohol and stearyl alcohol and ethylene oxide, wherein the number of repeating ethylene oxide units is 2 to 100; or

products of a reaction of cetyl alcohol, ethylene oxide, wherein the number of repeating ethylene oxide units is 1 to 45.--

Please add the following claim:

20

--98. A composition according to claim 47, wherein said hydrocarbon oil is a C₁₂ isoparaffin.--
